

ACOUSTIC STEEL DOORS

Techno Doors provides a wide range of Acoustic Doors that are made from core, seal, metal and other high quality acoustic products.

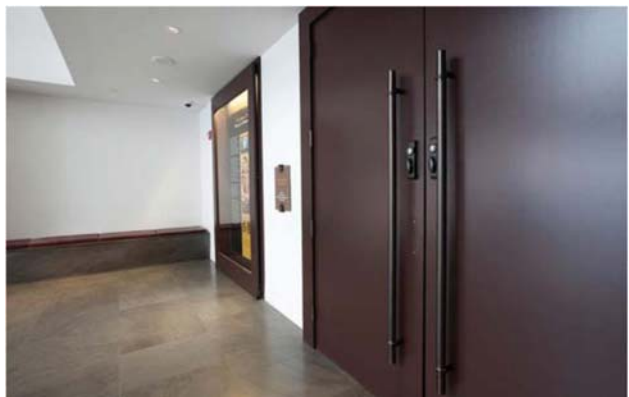

Acoustic Doors range from STC 33 up to STC 64, offering a unique range of noise reduction levels.

Techno Doors acoustic doors can also be Fire Rated in accordance to NFPA-80 and are UL & ITS certified, as per the following standards (ASTM E90, ATSM E413, ATSM E1332, ASTM E2235).

Acoustic Doors can be customized to the customer needs in terms of Design & Build. Our doors are available in compliance with both American Standards (**ANSI**) and European Standards (**BS/EN**).
